

COLORES DISPONIBLES / AVAILABLE COLORS

OUR ADVANTAGES

RIGID & LIGHT:

ACP Alucomex® is a strong and flexible solid aluminum panel for internal and external applications with excellent torsion and flexion.

CLIMATE AND CORROSION RESISTANT

ACP Alucomex® has a resin covering of fluorocarbon, which provides it with a high resistance to the extreme climate conditions and diminishes the possibility of corrosion presence by soluble salts, reason why won't be affected by the extreme temperature changes and the constant expose to ultra-violet rays.

SOUND RESISTANT

Compared to other materials for similars applications, ACP Alucomex® has a greater sound transmission loss.

EASY TO WORK WITH

ACP Alucomex® can be handled easily to any type of covering application, allowing to transform it with diversity of forms, angles, sizes and ratios. Conventional tools can be used to form shapes and angles that may be necessary.
